

5350 PUPIL SUICIDE PREVENTION

The Board of Education recognizes that depression and self-destruction are problems of increasing severity among children and adolescents. A pupil under severe stress cannot benefit fully from the educational program and may pose a threat to himself or herself or others.

The Board directs all school personnel to be alert to the pupil who exhibits behavioral warning signs of potential self-destruction or who threatens or attempts suicide. Any such signs or the report of such signs from another pupil or staff member should be taken with the utmost seriousness and reported immediately to the Building Principal, who shall notify the pupil's parent(s) or legal guardian(s) and other professional staff members in accordance with administrative regulations.

A potentially suicidal pupil shall be referred to building mental health professionals (school counselors, school psychologist or school social worker) for appropriate evaluation and/or recommendation for independent medical or psychiatric services. In the event that the parent(s) or legal guardian(s) objects to the recommended evaluation or indicates an unwillingness to cooperate in the best interests of the student, the Child Study Team may contact the Division of Children Protection and Permanency (DCP & P) to request that agency's intervention on the pupil's behalf.

In accordance with the provisions of N.J.S.A. 18A: 6-111 and 18A: 6-112, as part of the required professional development for teachers as outlined in N.J.A.C. 6A: 9-15.1 et seq., every teaching staff member must complete at least two hours of instruction in suicide prevention, to be provided by a licensed health care professional with experience in mental health issues, in each professional development period. The instruction in suicide prevention shall include information on the relationship between the risk of suicide and incidents of harassment, intimidation, and bullying and information on reducing the risk of suicide in pupils who are members of communities identified as having members at high risk of suicide.

The Superintendent shall prepare and disseminate regulations for the guidance of staff members in recognizing the pupil who contemplates suicide, in responding to threatened or attempted suicide, and in preventing contagion when a student commits suicide.
